## Reference Notes

---

### Variable Interest Rate

- Your loan has a variable Interest Rate that is based on a publicly available index, the 30 day average Secured Overnight Financing Rate (SOFR) rounded up to the nearest one hundredth of one percent, which is currently 3.64%. For purposes of calculating your variable rate, the SOFR index may never be less than 0.00%. Your rate will be calculated each month by adding a margin between 6.075% and 17.105% to 30 day average SOFR.
- In the event the 30 day average SOFR is no longer available or has been replaced, you agree that we may select and apply a comparable successor or replacement index to calculate your Interest Rate. We agree to promptly provide you with written notice of any such change. Any such successor or replacement Index will be applied consistent with industry practice, which may also require an adjustment to the margin added to the index.
- The rate will not increase more than once a month and will never exceed 17.95%. The Interest rate can never be less than 0.00%.
- If the Interest Rate increases your monthly payments will be higher.

### Autopay Discount

- If you make monthly principal and interest payments by an automatic, monthly deduction from a savings or checking account, the Variable Rate will be reduced by one quarter of one percent (0.25%) for so long as you continue to make such automatic, electronic monthly payments. This benefit is suspended during periods of deferment and forbearance.

### Prepayments

- You always have the option to make payments ahead of schedule without penalty. By making payments ahead of schedule, you can reduce

the total cost of your loan.
